PRIYASH DAS

priyashalucard@gmail.com | +91 7439006112 | Kolkata, West Bengal, India

AI-focused Computer Science graduate and M.Tech student specializing in Intelligent Automation and Robotics. Experienced in building LLM-powered systems, AI workflows, multi-agent architectures, and scalable full-stack applications

GitHub/priyash-das LinkedIn/in/priyash-das

SKILLS

Frontend - HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap, Material UI | Backend - Node.js, Express.js | Databases - MongoDB, MySQL | AI & Programming - Python, Generative AI, Prompt Engineering | Tools & Platforms - Git, GitHub, VS Code | UI/Design - Figma, Canva | Productivity - Microsoft Office

EDUCATION

- **M.Tech** - **Intelligent Automation and Robotics** @ Jadavpur University — 2025 – 2028
- **B.Tech** - **Computer Science and Engineering** @ Budge Budge Institute of Technology, MAKAUT — 2021 – 2025 | CGPA: 8.1
- **Higher Secondary (12th)** - **Science** @ Jadavpur N. K. Pal Adarsha Shikshayatan — 2019 – 2021 | 66%
- **Secondary Education (10th)** @ Jadavpur N. K. Pal Adarsha Shikshayatan — 2019 | 64%

EXPERIENCE

❖ **Intern - Artificial Intelligence & Machine Learning, Edunet Foundation (AICTE & IBM SkillsBuild)** — December 2025 - January 2026 | **[Link]**

- Completed an AICTE-recognized AI/ML internship, gaining structured training in AI fundamentals, machine learning concepts, Python programming, and applied AI workflows through mentor-led sessions and project-based learning.
- Gained hands-on experience working with AI tools, APIs, and cloud platforms under the IBM SkillsBuild program.
- Designed and developed a capstone project, Student Academic & Career Assistant, a Python-based multi-agent desktop system enabling unified academic and career automation.

❖ **Intern - National Human Rights Commission (NHRC)** — September 2024 | **[Link]**

- Explored human rights laws, policies & societal issues. Engaged in sessions focused on legal principles and their real-world applications.
- Secured 3rd Position in a group research project titled "Role of Human Rights Defenders in Protection of Human Rights" and submitted a critical book review on "The Boy Who Harnessed the Wind," analysing themes of innovation, education, and resilience.

❖ **Volunteer - Google Developer Student Club (GDSC, BBIT)** — 2023 - 2024 | **[Link]**

- Contributed to student-led technical learning initiatives and mentored a group of students, guiding them to successfully complete the Gen AI Study Jams bootcamp modules with a 100% completion rate (May 2024).

PROJECTS

❖ **Intelligent Voice-Controlled Desktop Agent | Axylo** — November 2025 - December 2025 | **[Link]**

- Developed a local AI concierge desktop agent integrating real-time voice interaction, LLM-based reasoning and structured GUI for intelligent task automation and seamless human-computer interaction as part of the Kaggle "5-Day AI Agents Intensive Course with Google" Capstone Project.
- Designed a multi-agent architecture (MainAgent, ResearchAgent, CodeAgent) enabling app control, intelligent web search, document generation, voice typing, and system automation through structured tool routing and decision logic.
- Tech Stack: Python, Google Gemini API, SpeechRecognition, Edge-TTS/gTTS, PyAutoGUI, CustomTkinter, DuckDuckGo Search; open-sourced under CC BY 4.0 International License.

❖ **Student Academic & Career Assistant** — December 2025 - January 2026 | **[Link]**

- Developed a modular multi-agent AI system integrating specialized agents (General Chat, Study Buddy, Voice-to-Notes, Resume Builder, Website Generator) to streamline academic and career-focused workflows within a unified platform.
- Designed an agent-supervisor architecture with centralized logging, structured tool routing, and workflow orchestration to enable document processing, AI-powered content generation, quiz creation, and automated website/resume generation.
- Tech Stack: Python, Tkinter/CustomTkinter, Agent Modular Architecture, Google Gemini, Groq, Hugging Face Inference, SerpAPI, openai-whisper.

❖ **Voice-Controlled System for Disabled Users | SONIX** — August 2024 - June 2025 | **[Link]**

- Developed a smart voice-controlled system to aid individuals with physical disabilities by enabling seamless, hands-free interaction with digital platforms. Achieved over 95% accuracy, tested by 40+ users in both real-world and controlled environments.
- Tech Stack: Python, MongoDB, NLP, ASR, HTML, CSS, JavaScript.
- Presented a research paper at E2ACON 2025 - International Conference on Electrical, Electronics & Automation, NIT Jalandhar.

❖ **Full-Stack Web Applications Suite | Vacation Rental Platform & Trading Platform** — April 2025 - July 2025 | **[Link]**

- Engineered two production-grade full-stack applications: a vacation rental platform replicating core Airbnb workflows and a trading dashboard simulating Zerodha functionality, implementing scalable MVC and three-tier architectures with separate frontend, dashboard, and RESTful backend layers.
- Implemented secure authentication and session management using Passport.js and Express-session, and developed RESTful APIs supporting CRUD operations, portfolio tracking, order placement, holdings/positions management, image uploads (Cloudinary + Multer), interactive maps (Leaflet), and data visualization (Chart.js) using React, Node.js, Express.js, and MongoDB (Mongoose).

TRAINING & CERTIFICATIONS

AI/ML - Edunet Foundation (AICTE & IBM SkillsBuild) | 5-Day AI Agents Intensive Course with Google - Kaggle | Java Full Stack Developer Training Program - Wipro TalentNext | Data Analytics Training Program - Infosys Foundation | Full-Stack Web Development - Apna College. **[Link]**

ACHIEVEMENTS & ACTIVITIES

- **Co-authored and presented** a research paper at **E2ACON 2025**. **[Link]**
- Secured **3rd Position** in **NHRC Internship** Group Research Project (Sep 2024). **[Link]**
- Participant - 30 Days of Google Cloud & Gen AI Study Jams Bootcamp, and **Innovation Ignite Hackathon**. **[Link]**

HOBBIES

Fitness training & strength building, Listening to Music, Watching YouTube content on technology and global news, Learning new technology.
